You showed me videos recorded twenty-five years ago
Please don't ever leave me alone

I tried to hold it in
You knew the pain I felt when I fell
And I still remember
Your heartbeat

You told me stories
Of how to end my--

Waiting for a better day
There couldn't be a better way
Just look out the window and you'll see how everything's ok

I tried to bottle up my feelings
You knew the pain I felt when I fell
And I still remember
How much I hated you

You told me stories
Of how to end my misery
